AREA 51 SENSORY SPACE

My visit to Area 51 World's Sensory Space

When I arrive at Area 51, we will enter and see many bright colours and different activities.

I may hear other kids being loud as they play and talk.

I will line up to get a special coloured wristband on my wrist to enter the venue.

I need to take off my shoes, and only wear my Area 51 Grip Socks, so I can play.

I will join other explorers in playing on the equipment. I can climb, slide, and crawl.

I will see people in bright blue and purple shirts that are here to help me and keep me safe.

I will follow the rules at Area 51 World. This will keep me and other people safe and happy.

I can play for 1 or 2 hours before I have to leave.

I had fun at Area 51 World.
